

ADDENDUM E

FACULTY INFORMATION

E. FACULTY INFORMATION

1. PREVIOUS AND PRESENT FACULTY

Tabulate faculty and staff specifically assigned and budgeted to the particular program under review. The number listed in the TOTAL column should agree with the information provided for Standard 2C (Faculty Numbers). Use the following format:

| Rank/Title - Landscape Arch. | Current (2014-15) | 1 Year Ago (2013-14) | 2 Years Ago (2012-13) | TOTAL |
|-------------------------------|-------------------|----------------------|--|-----------|
| Professor | 1 (sabbatical) | 1 | 1 | 3 |
| Assoc. Professor | 1 | 1 | 1 | 3 |
| Asst. Professor | 2 | 2 | 2 | 6 |
| Instructor/Senior Instructor | 4 | 4 | 5 | 13 |
| Visiting Instructor/Professor | 1 | 0 | 0 | 1 |
| Lecturer/ Adjunct | 2 (Nims, Wenk) | 2 (Flohr, Nims) | 6 (Crotty, Dunaske, McCormick, Nims, Nesbitt&Anderson =1, Schooler | 10 |
| TOTALS | 11 | 10 | 15 | 36 |

NOTE: Above does NOT include Maymester or Summer classes for the respective AY. Summer classes are not considered part of the annual academic teaching contract and are paid individually on a "per class" basis. It is also difficult to identify lecturers as extra since some faculty had parent leave and so remained as faculty but weren't teaching in a particular semester, and in 2014-15 one faculty member had sabbatical.

2. INSTRUCTIONAL ASSIGNMENTS

Complete the following table for all full and part time instructors. Begin with the Program Administrator and list in order of rank.

Teaching: Percentage FTE assigned to courses taught/instruction.

Research: Include only the percentage of time specifically assigned to research and so recognized by reduction in full-time teaching load. Do not include research efforts normally considered a part or full-time faculty members' contributions.

Administration: Include only the percentage of time devoted to regularly assigned administrative responsibilities. Do not include incidental ad hoc administrative duties, i.e., committee work, visiting lecturer arrangements, student advisement.

| Faculty member | Advanced and Professional Degrees | Teaching % | | Research % | Admin / other % | TOTAL % |
|-------------------|---------------------------------------|------------------------|----------------|------------|-----------------|---------|
| | | Land. Arch. Curriculum | Other programs | | | |
| Komara, Ann E. | MLA MArch History | 10 | 10 | 40 | 40 | 100 |
| Brink, Lois A. | MLA | 100 | 0 | 0 | 0 | 100 |
| Langhorst, Joern | MLA (equivalent) (Ph.D. Candidate) | 100 | 0 | 0 | 0 | 100 |
| Beck, Jody | MArch Ph.D. | 100 | 0 | 0 | 0 | 100 |
| Catalano, Lori A. | MLA | 80 | 0 | 0 | 20 | 100 |
| Mazzeo, Anthony | MLA | 50 | 0 | 0 | 0 | 50 |
| Tolderlund, Leila | MLA | 67 | 0 | 0 | 0 | 67 |
| Didier, Emmanuel | MLA MArch | 50 | 0 | 0 | 0 | 50 |
| Carman, Scott | MLA | 67 | 0 | 0 | 0 | 67 |

3. COURSES TAUGHT BY INDIVIDUAL FACULTY MEMBERS

Complete the following table for each instructor.

Courses Taught: Use current year or last academic year depending on time of report preparation.

Term Symbols: Use the institutional terminology. For example: Fall Semester - FS, Spring Semester, SS, Fall Quarter - FQ, Winter Quarter - WQ, Spring Quarter SQ, Summer Term - ST.

Contact Hours: Actual number of scheduled contact hours per week between instructor and students.

FTE Students: Multiply credit hours by number of students and divide by 15 for undergraduate courses, 12 for graduate level courses.

| Course Taught AY 2014-15 | Course Number | Term | Credit Hours | Contact Hrs / Week | Number Of Students | FTE Students |
|-----------------------------|-------------------|------------------|-----------------|-----------------------|-----------------------|--------------|
| Komara, Ann E. | LDAR 5521 | FS | 3 credits | 2 hr 45 min | 26 | 6.5 FTE |
| | URBN 6652 | SS | 3 credits | 2 hr 45 min | 16 | 4.0 FTE |
| Brink, Lois A. | <i>Sabbatical</i> | <i>FS and SS</i> | <i>0</i> | <i>0</i> | <i>0</i> | <i>n/a</i> |
| Langhorst, Joern | LDAR 5572 | FS | 3 credits | 2 hr 45 min | 26 | 6.5 FTE |
| | LDAR 6949 | FS | 3 credits | 2 hr 45 min | 18 | 4.5 FTE |
| | LDAR 6620 | SS | 3 credits | 2 hr 45 min | 17 | 4.25 FTE |
| | LDAR 6722 | SS | 3 credits | 2 hr 45 min | 16 | 4.0 FTE |
| Beck, Jody | LDAR 6606 | FS | 6 credits | 10 hours | 11 | 5.5 FTE |
| | LDAR 6686.001 | FS | 3 credits | 2 hr 45 min | 8 | 2.0 FTE |
| | LDAR 5502.001 | SS | 6 credits | 10 hours | 12 | 6.0 FTE |
| | LDAR 6630 | SS | 3 credits | 2 hr 45 min | 16 | 4.0 FTE |
| Catalano, Lori | LDAR 6631 | FS | 3 credits | 5 hr 30 min | 8 | 2.0 FTE |

| | | | | | | |
|---------------------------|---------------------|----|-----------|--------------------------|----|----------|
| | LDAR 6670 | FS | 3 credits | 2 hr 45 min | 11 | 2.75 FTE |
| | LDAR 5532 | FS | 3 credits | 5 hr 30 min | 18 | 4.5 FTE |
| | LDAR 6750 | FS | 3 credits | 2 hr 45 min | 15 | 3.75 FTE |
| Mazzeo, Anthony | LDAR 5501.001 | FS | 6 credits | 10 hours | 13 | 6.5 FTE |
| | <i>Parent leave</i> | SS | | | | |
| Tolderlund, Leila | LDAR 5501.002 | FS | 6 credits | 10 hours | 13 | 6.5 FTE |
| | LDAR 6712 | FS | 3 credits | 2 hr 45 min | 15 | 3.75 FTE |
| | LDAR 6604/07.001 | SS | 3 credits | 10 hours / ½ semester | 9 | 2.25 FTE |
| | LDAR 6686.002 | SS | 3 credits | 2 hr 45 min | 16 | 4.0 FTE |
| Didier, Emmanuel | LDAR 5503 | FS | 6 credits | 10 hours | 14 | 7.0 FTE |
| | LDAR 6604/07.002 | SS | 3 credits | 10 hours / ½ semester | 13 | 3.25 FTE |
| | LDAR 6605/08.001 | SS | 3 credits | 10 hours / ½ semester | 10 | 2.5 FTE |
| Carman, Scott | LDAR 5540 | FS | 3 credits | 2 hr 45 min | 26 | 6.5 FTE |
| | LDAR 6686.002 | FS | 3 credits | 2 hr 45 min | 12 | 3.0 FTE |
| | LDAR 5502.001 | SS | 6 credits | 10 hours | 12 | 6.0 FTE |
| Nims, Adam | LDAR 6641 | SS | 3 credits | 2 hr 45 min | 12 | 3.0 FTE |
| Wenk, Bill | LDAR 6605/08 | SS | 3 credits | 10 hours / ½ semester | 13 | 3.25 FTE |
| Steffel-Johnson, Jennifer | LDAR 6686.003 | FS | 3 credits | 2 hr 45 min | 20 | 5.0 FTE |
| Schroepfel, Ken | LDAR 6686.004 | SS | 3 credits | 2 hr 45 min | 15 | 3.75 FTE |

NOTE: Above does NOT include Maymester or Summer classes for the respective AY. Summer classes are not considered part of the annual academic teaching contract and are paid individually on a "per class" basis.

4. VISITING LECTURERS/CRITICS

List the name, specialty, dates in attendance and the contribution of visiting critics and lecturers, resource personnel, etc. who served the program. List only persons who were brought in for the program under review. Indicate by an asterisk () those sponsored jointly with other departments or sponsored at the college or school level. Use the format below to list this information for the present and two preceding academic years.*

The department maintains an active program of inviting visiting guests from within and outside the Denver metropolitan area to speak in classes, participate in desk crits and to review students' work during juries. These guests include academics from other departments and institutions, professionals from public agencies and practicing professionals. A list of guests and critics who participated in landscape architecture reviews and courses during the past three years are listed in the table below. Many jurors participated on several occasions but they are listed only once.

In addition, the College of Architecture and Planning has an established lecture series. The college's various Departments do not run independent programs, but rather collaborate on one lecture program for the entire college each semester. A member of the faculty serves as lectures coordinator, assisted by recommendations for lecturers from the chairs and department Faculty. Students also participate in the selection of and hosting of visiting lecturers. The list of speakers for the college lecture series follows the table of Visiting Guests and Critics.

Visiting Guests and Critics

| Acad. Year | Date | Name | Field and/or Specialty | Contribution |
|------------------|------------|-----------------------|--|----------------------------|
| Fall 2012 | | | | |
| 5501.001 | Dec 3 | Marcia Weese | Artist, Painter and Rug Designer | Juror |
| | Dec 3 | Mariko Tominaga | Landscape Architect, Wenk Associates | Juror |
| | Dec 3 | Herb Kindsfater | Landscape Architect | Juror |
| | Dec 3 | Adam Clack | Landscape Architect | Juror |
| 5503.001 | Oct 22 | Stephen Hall | Oz Architecture/Architect/Landscape Architect | Juror |
| | Oct 22 | Drew Dutcher | Studio Compleitiva/Architect | Juror |
| | Dec 3 | Herb Kindsfater | AECOM/Landscape Architect | Lecturer/Juror |
| | Oct 22 | Suzanne Serna | AECOM/Landscape Architect | Lecturer/Juror |
| | Dec 3 | Mariko Tominaga | Wenk Associates/Landscape Architect | Juror |
| | Oct 22 | Cynthia Gurjardo | Landscape Architect | Juror |
| | Dec 3 | Eric Crotty | ECLA, Inc./Landscape Architect | Juror |
| | Dec 3 | Andy Dufford | Chavious Studio/Landscape Artist | Juror |
| | Dec 6 | Greg Race | Lake County Recreation Volunteers | Juror |
| | Dec 6 | Leaf Garrison | Lake County Recreation Volunteers | Juror |
| | Dec 6 | Mike Bognoia | County Commissioner | Juror |
| | Dec 6 | Jackie Miller | Great Outdoors Colorado | Juror |
| 5572 | Dec 6 | Jake Houston | Great Outdoors Colorado | Juror |
| | Oct 15, 20 | Gary Sancon | Boulder County Fourmile Canyon Fire Recovery | Lecturer |
| | Oct 22 | Davenhill, Casey | Cherry Creek Stewards Partnership | Lecturer |
| | Sept 3 | Ignacio Ferrer-Vinent | Auraria Science Library | Lecturer |
| | Oct 1 | Jeff Dillon | Directory City of Boulder Parks Dept. | Lecturer |
| 6670 | Nov 9 | Mullendor, Darren, PE | Engineer, Denver Urban Drainage | Lecturer |
| | Oct 15, 20 | Gary Sancon | Boulder County Fourmile Canyon Fire Recovery | Lecturer |
| | Oct 31 | Alan Clark | Alameda Wholesale Nursery/Plant Procurement | Nursery Tour |
| | Oct 31 | Michael Catalano | Siteworks Services Inc./Quality Control Specialist | Nursery Tour |
| | Dec 12 | Courtney McRickard | 360 Design/Principal/Landscape Architect | Juror |
| 6686.002 | Dec 12 | Gretchen Wilson | Dig Studio/Landscape Architect | Juror |
| | Dec 12 | Lisa Langer | Perspective 3/Landscape Architect | Juror |
| | Aug 21 | Matt Annabel | UCD MLA Students | ROOT Editors |
| | Aug 21 | Will Viitanen | UCD MLA Students | ROOT Editors |
| | Sept 11 | Michael Leccese | Writer & Editor, Principal Fountainhead Communications, LLC | The Art of Interviewing |
| | Sept 25 | Ken Schroepel | Instructor, CU Denver Urban Planning Graduate Program | Blogging/Alt Media |
| | Oct 2 | Tina Bishop | Principal, Mundus Bishop Design | Master Plans |
| | Oct 23 | Keo Frazier | President, KEOS Marketing Group | Websites, Marketing |
| | Oct 30 | Jerry Shapins | Principal Emeritus, Shapins Associates | Interpreting Place |
| | Dec 4 | Michael Leccese | Executive Director Urban Land Institute-Colorado | Public Speaking |

| Acad. Year | Date | Name | Field and/or Specialty | Contribution |
|--------------------|----------------------|----------------------------|--|------------------------------|
| 6712 | Dec 11 | Michael Jenson | CU Denver Architecture Faculty | Juror |
| | Dec 11 | Robert Flanagan | CU Denver Architecture Faculty | Juror |
| | Dec 11 | Cheryl Spector | Architect and Business Owner | Juror |
| | Dec 11 | Community outreach meeting | Various (10-15) Artists, Owners, Tenants and Community Members | Reviewers |
| | Dec 11 | Marc Ingber | College of Engineering and Applied Science/Dean | Juror |
| | Dec 11 | Indrani Pal | Faculty/CEAS | Juror |
| | Dec 11 | Fernando Mancilla-David | Faculty/CEAS | Juror |
| | Dec 11 | Kevin Rens | Faculty/CEAS | Juror |
| Spring 2013 | | | | |
| 5532 | May 5 | Chris Sutterfield | Studio Insite/Landscape Architect | Lecturer/ Field Trip |
| | May 10 | Craig Vickers | Civitas/Principal/Landscape Architect | Juror |
| | May 10 | Axel Bishop | Design Concepts/Principal/Landscape Architect | Juror |
| 6604/07.001 | Jan 28, Feb 7, 21 | Herb Kindsfater | AECOM Landscape Architect | Guest Lecturer and Critic |
| | Feb 7, 21 | Suzanne Serna | AECOM Landscape Designer | Guest Lecturer and Critic |
| 6605/08.001 | April 21 | Jen Lewin | Artist | Lecturer |
| | April 14 | Chris Koziol | Associate Professor | Lecturer |
| 6605/08.002 | March 18, May 6 | Mary Somerville | Auraria Library/Director | Juror/Guest Lecturer |
| | March 18, May 6 | Jill Jennings Golich | Auraria/Campus Planner | Juror/Guest Lecturer |
| 6605/08.003 | March 18, May 6 | Marical Farner | Auraria Library/Assoc. Director for Admin | Juror |
| | March 18, May 6 | Evelyn Wilder | Auraria Library/Library User Experience Dept | Juror |
| | March 18, May 6 | Cynthia Hashert | Auraria Library/Assoc Director Education | Juror |
| | March 18, May 6 | Elizabeth Cooper | Auraria Library/Head of Research Instruction | Juror |
| | May 6 | Matthew Mariner | Auraria Library/Head of Special Collections | Juror |
| | April 22, May 6 | Scott Jordan | Civitas/Principal/Landscape Architect | Juror |
| | April 22, May 6 | Jun Zhou | Design Workshop/Landscape Architect | Juror |
| | April 22, May 6 | David Gregory | Oxbow Design Collaborative/Landscape Architect | Juror |
| 6605/08 | May 6 | Brandon Sobiech | Dig Studio/Assoc, Partner/Landscape Architect | Juror |
| | May 11 | Drew Dutcher | Studio Completiva/Architect | Juror |
| | May 11 | Craig Johnson | RNL | Juror |
| Adv. Eco | Multiple visits | Bill Ruzzo | Cherry Creek Watershed Basin Authority | Client, Project Sponsor |
| | Multiple visits | Seth Beres | Two Ponds NWR, US Fish & Wildlife Service | Project Sponsor |
| | Multiple visits | Patricia Carmody | Riverside Cemetery, Director | Project Sponsor |
| | Multiple visits | Casey Davenport | Cherry Creek Stewardship Partners | Client, Project Sponsor |
| | Nov 5 | Carol Hunter | Partner for Access to the Woods | Universal Design |

| Acad. Year | Date | Name | Field and/or Specialty | Contribution |

| | March 9 | Joe Juhasz | Faculty / Architecture | Juror |
| 6605/08.001 | April 9 | Michael Delgiudice | UCD / Director Office of Institutional Planning | Guest Lecturer |
| | April 9 | Mackenzie Pett | UCD / Planner Office of Institutional Planning | Guest Lecturer |
| | April 9 | Jonathan Woodcock | UCD / Assistant Professor of Neurology | Guest Lecturer |
| | May 7 | Suzanne Serna | META / LA | Juror |
| | May 7 | Diane Lipovsky | Civitas / LA | Juror |
| 6605/08.002 | April 17 | Brian Nicholson | RNL, Landscape Architect | Juror |
| | May 7 | | | |
| | April 17 | Carl Meese | AHEC, Planner | Juror |
| | April 17 | Greg Dorolek | Wenk Associates, Landscape Architect | Juror |
| | May 7 | Chad Caletka | Dig Studio, Landscape Architect | Juror |
| | May 7 | Jeff Stamper | AHEC, Facilities Management | Juror |
| 6686.002 | May 13 | Robert Flanagan | Faculty / Architecture | Juror |
| | May 13 | Joe Juhasz | Faculty / Architecture | Juror |

College of Architecture and Planning Lecture Series

(* = Indicates a speaker invited and hosted by the Department of Landscape Architecture.)

Spring 2012

Zuhair Fayez, President, Zuhair Fayez Partnership

Designing for Faith, January 23

Anthony Vidler, Dean, School of Architecture, Cooper Union

Where in the World is Theory?, February 13

* Harold Linton, Director, School of Art, George Mason University

Portfolios, February 24

Greg Kingsley, CEO, KL&A Structural Engineers & Builders

Adventures with Architects, February 27

* James Urban, FASLA, Founder, The Office of James Urban

Up By Roots, March 1

Jeffery T. Schnapp, Professor, Romance Languages & Literature, GSD & Fellow, Berkman Center, Harvard

Panorama of the Cold War, March 5

Augustin Loan, Dean of Graduate Research, Ion Minou University, Bucharest

Retrofuturism: Sacred Spaces Today, March 12

* Jane Wolff, Director, Master of Landscape Architecture Program, University of Toronto

Words for Snow, March 26 (ROOT Lecture)

Peter Stutchbury, Principal, Peter Stutchbury Architecture, Australia

Evolution or Adaptation?, April 5

Michael Mesko, Robert Stern Architects and ICA&A, NYC

Classical Detailing in Contemporary Practice, April 9

EXHIBITS

* *Urban Plant Materials*, February 15 – March 12

Emerging Designers + Planners: Denver, CO, April 15 – May 10

5. INDIVIDUAL TEACHER'S RECORD

The faculty teaching records are organized in the following order.

Current Faculty

| | |
|------------------|--|
| Lois Brink | Professor |
| Ann Komara | Associate Professor, Chair (<i>Fall 2009 to present</i>) |
| Joern Langhorst | Associate Professor |
| Jody Beck | Assistant Professor |
| Lori Catalano | Senior Instructor, Associate Chair |
| Tony Mazzeo | Senior Instructor |
| Leila Tolderlund | Instructor |
| Emmanuel Didier | Instructor |
| Scott Carman | Lecturer, Visiting Assistant Professor (<i>2014-15</i>) |

Previous Faculty

| | |
|---------------|---|
| Austin Allen | Associate Professor (<i>2004-2010</i>) |
| Charlie Chase | Senior Instructor (<i>2006-2013</i>) |
| Joni Palmer | Lecturer, Visiting Assistant Professor (<i>2011-12</i>) |

Lecturers (2009-2015)

| | |
|--------------------|---------------------------|
| Tim Anderson | |
| Jeremy Boik | |
| Brad Borthwick | |
| Adam Clack | |
| Eric Crotty | |
| Michelle Delk | |
| Nicholas Dunaske | |
| Billy Gregg | |
| Amanda Jeter | |
| Kathleen Kambic | |
| John Lanterman | |
| Rob Layton | |
| Michael Leccese | |
| Kathleen McCormick | |
| Robert Micsak | |
| David Mullen | |
| Heath Mizer | |
| Mark Naylor | |
| Kaia Nesbitt | |
| Adam Nims | |
| Leanne Paez-Duncan | |
| Chris Schooler | |
| Suzanne Serna | |
| Gayle Weinstein | |
| Bill Wenk | Lecturer, Adjunct Faculty |

Contributing Faculty

| | |
|-----------------------|---|
| Austin Troy | Professor, Chair - Planning and Design |
| Jenny Steffel Johnson | Instructor, Associate Chair - Planning and Design |
| Ken Schroeppel | Instructor – Planning and Design |
| Chris Koziol | Associate Professor - Architecture |
| Taisto Makela | Associate Professor - Architecture |
| Peter Anthamatten | Affiliated Faculty, Assistant Professor – Geography |

Lois Brink - Professor

EDUCATION

- Orenco Park, Hillsboro, Oregon

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

Introduction

My research works from a multi-disciplinary platform to build sustainable, healthy communities by developing partnerships along the way. My vision is threefold: 1) design and construct environments that contain a range of opportunities or affordances for healthy living; 2) empower children and communities through programs for after-school activities, community organizing, healthy eating and active living; and; 3) evaluate and research in a comprehensive manner. Due to the non-traditional nature of my work I have included an overview of my applied research.

Learning Landscapes

Denver Public Schools (DPS) is an urban school district serving 80,000 students of which almost 60% are Latino/Latina and 72% of the total district student body qualifies for free and reduced lunches. Colorado's childhood obesity is increasing at the second highest rate in the nation. The two leading causes of obesity are poor diet and inadequate physical activity. During the past 15 years at the University of Colorado my applied research created an entrepreneurial public-private partnership and community engagement program that designed and built 100 comprehensive outdoor play spaces, entitled Learning Landscapes at Denver elementary schools. An academic environment facilitated the process of designing and building the playgrounds and provided an

opportunity for CU Denver students to work with the schools to engage parents, students, businesses, and civic leaders. Through joint-use agreements, these play spaces were opened up to the community after school hours. The popularity of Learning Landscapes inspired broad public support and the public financing necessary to scale this model to every school playground in Denver. By 2012 Denver Public Schools (DPS) will have spent almost 50 million dollars to redevelop all of its elementary schoolyards.

The popularity of Learning Landscapes has served as catalyst for other play initiatives at the state level. The Colorado Health Foundation initiated the active play areas program and granted \$200K to communities to develop plans for future schoolyard construction. Tri-County Health Department funded \$500k for 40 of the schools in its district to develop comprehensive plans and construction drawings for schoolyard redevelopment. Greater Outdoors Colorado has dovetailed these initiatives with capital improvement grants for the construction of redeveloped schoolyards.

Studies to date have shown that these improved schoolyards or Learning Landscapes have lead to statistically significant levels of increased physical activity. Research also suggests that integrating multiple holistic programs - nutrition and physical activity - will have a greater chance of reducing obesity. Currently DPS purchases over 2.5 million pounds of fruits and vegetables each year. Research indicates that an integrated approach involving healthy menu options, nutrition education and a synergy between school food and farm or garden is most effective in changing eating habits. I received a grant from the Colorado Health Foundation to conduct a study to determine the capital improvements necessary for the district to sustain and implement a replicable, economically viable urban agriculture model focused on supplying all its own fruits and vegetables. Core findings and recommendations including analysis of mapped DPS land; kitchen assessments; research and recommendations of food hubs, and research of legal implications pertaining to labor, food safety/quality, zoning, infrastructure, and business agreements has resulted in the execution of four farm sites at Denver schools that are growing produce and serving that produce in school cafeterias.

Advancing the Profession

I offer a practical research mechanism (The Learning Landscape Initiative described below) that advances contemporary practices in landscape architecture. I am actively creating a hybrid of learning where the knowledge base from the applied profession is actively re-integrated into theory and research discourse. I engage evidence-based, participatory and other non-traditional forms of research. This empowers my students to bridge the traditional forms of quantitative research and design practice with the qualitative principles underlying design strategies and the aesthetics that define the professional practice of landscape architecture.

As I seek to understand what is of real value to people and create urban landscapes that reflect the layers and often the elusiveness of those values, my long-term goal is to shift popular attitudes towards how we live and how we sustain public places by actively engaging and empowering people and their communities. Through this achievement landscape architects' value to society becomes increasingly evident and essential towards the improvement of the human condition. We are the agents for recalibrating the American landscape in ways that actively address changing cultural, popular and civic phenomena.

Sabbatical & Current Research

In June of 2011 the Philadelphia Water Department (PWD) launched "Green City, Clean Waters", a \$2 billion 25-year plan to protect and enhance Philadelphia's watersheds. It is the first city to receive approval from the Environmental Protection Agency to implement this type of program.

During the past year I have been collaborating with Philadelphia schools, PWD and the School District of Philadelphia (SDP) to create the Philadelphia Green Schools Alliance (PGSA), a partnership that seeks to fund and construct 18 schoolyards over three years by organizing the collective impact of government, community and non-profit organizations. When finished the 18 green schoolyards will serve approximately 7,000 students, 90 percent of who are economically disadvantaged -- and 580,000 community residents. It is anticipated that the schoolyards could create approximately 51 green acres. If successfully funded, the total investment would exceed \$16 million.

Ann E. Komara - Associate Professor, Chair (Fall 2009 to present)

- Komara, Ann. 2010. Review of *Shaping the American Landscape*, eds. Charles Birnbaum and Stephanie Foell (Charlottesville: University of Virginia Press, 2009). Reviewed in *Preservation Education & Research Journal*. 3: 74-75.

Presentations

- 2015 Featured speaker. Institute for Classical Architecture Colorado Chapter. "Miller Residence: Classical Icon of the Modernist Era."
- 2014 Field session co-leader with Patrick Mundus. American Society of Landscape Architects (ASLA) Annual Conference, Denver, Colorado. "The CCC and Denver Mountain Parks."
- 2014 Selected Speaker (peer review). Society of Architectural Historians. "Wilderness Playground: Image and Reception, Rocky Mountain National Park."
- 2014 Featured Speaker. Denver Botanic Gardens and the Denver Water Garden Society "Get Wet" series. "Water: Fluid Form in the Garden."
- 2012 Invited Speaker. Tattered Cover Bookstore Rocky Mountain Land Series. "Denver's Urban Renewal: Lawrence Halprin's Skyline Park."
- 2012 Selected speaker (peer review). Colorado Preservation, Inc. "Reading Sites: Landscapes."
- 2011 Invited Speaker. Cultural Landscapes in the Western United States: A Workshop, Sponsored by the Colorado Office of Archaeology and Historic Preservation (SHPO) and the National Park Service. "CCC Landscapes – Documentation and Interpretation."
- 2010 Invited Speaker (peer review). Dumbarton Oaks Colloquium on Lawrence Halprin. "Event and Flow: Denver's Skyline Park."
- 2010 Selected Speaker. Council of Educators in Landscape Architecture [CELA]. Session Title: "Landscape Legacy: Landscape Architecture between Art and Science Design Education and Pedagogy." Paper: "Context Reconsidered."
- 2010 Invited Speaker. Southeast University, Nanjing, China. "Lawrence Halprin and Skyline Park."
- 2010 Invited Speaker. Tongji University, Shanghai, China. "The Legacy of the Civilian Conservation Corps – ANF-1, Forest County Pennsylvania Cultural Landscape Study."
- 2009 Invited Speaker. Pennsylvania Preservation Conference – Harrisburg. "Replanting the Allegheny National Forest: Conservation Work by the CCC Camp at Duhring, PA" in the Preservation of Environmental History Session.
- 2009 Featured Speaker. Rocky Mountain Cooperative Extension Unit [CESU] with the National Park Service. "Images of Rocky Mountain National Park: A Reception History."

Reports

- Komara, Ann, Tucker Hancock, Austin Troy. *Rocky Mountain National Park "Utility Area Cultural and Natural's Management Plan"* (Denver: University of Colorado Department of Landscape Architecture, 2015).
- Komara, Ann et al., *Cultural Landscape Study, Duhring Pennsylvania – CCC Camp 318* (Denver: Advanced Design Studio LA 6606, University of Colorado Department of Landscape Architecture, 2008).
- Komara, Ann et al., *Skyline Park Historic American Landscapes Survey* (Denver: UCDHSC Department of Landscape Architecture, Colorado Preservation, Inc., and Intermountain Regional Office, National Park Service, 2005). CHS Project #04-MI-015; NPS HALS #CO-001.

Grants and Funding

- 2011 National Park Service - Rocky Mountain CESU Grant. \$20,000.
"Development of Cultural/Natural Landscape Management Plan for the Utility Area of Rocky Mountain National Park." Co-PI with Charles Chase, Ecologist.
- 2010 CIBER Grant (CU Denver). \$3500.
Funding to enhance international content and initiatives in the curriculum, and to support presentations and publication of research in China. Support for international travel to China.
- 2007 Colorado State Historical Fund Grant. \$28,980.
Funding production and printing for book. Inaugural volume in the "Requiem Series." *Skyline Park and Lawrence Halprin: An American Design Legacy*.

2007 College of Architecture and Planning Faculty Seed Money Grant. \$5,000
To support Fulbright - "Mid-century Modern American Landscapes."

Design Projects

Martin Residence Terrace Design - Penthouse, Denver Art Museum Residences, Denver, Colorado
Mäkelä Residence Landscape and Garden Design, Wheat Ridge, Colorado
Hofmann Residence Landscape Renovation and Garden Design, Denver, Colorado
Griffiths Residence Garden Design, Denver, Colorado
Ells Residence, Landscape Design, Denver, Colorado (published)

Items in Review or Preparation

Essay under review. "Rocky Mountain National Park – A Reception History Through Images"
Essay ready for review. "Souvenirs de Buttes Chaumont: Image, Memory and Reception of the Picturesque"
Essay in preparation. "Finland's Modernist Landscape Design: Influences and Patterns"
Book proposal in preparation. *Approaches to Landscape History* (draft title), Routledge Press

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My contributions over the last six years have supported my department's goals and educational objectives, advanced disciplinary knowledge, and brought recognition to the profession in several key ways. Perhaps first and foremost, my work as an educator and practitioner garnered recognition within the university with an award of promotion and tenure. This status brings stability and a strong clear presence to my department's academic standing and positioned me to move our department forward through leadership, scholarship, and teaching.

A significant contributing factor towards tenure that also carried broad departmental and professional recognition was my selection as a Fulbright – CIES scholar. In my position teaching and doing research at the Helsinki University of Technology (HUT), I represented the field of landscape architecture and brought stature to a rather smaller department housed within HUT's influential College of Architecture. Though my interactions there with students and professionals I learned of design and implementation practices abroad, and shared my insights regarding the practice and influence of landscape architecture in the United States, particularly emphasizing movements, initiatives, practitioners and ideas underpinning our significant work in the 20th century.

My record of scholarship and publications is another factor supporting my receipt of tenure. Most recently, I was awarded a prestigious Camargo Fellowship for my research on the Parc des Buttes Chaumont. My published work speaks to the value of understanding cultural patterns to discern meaning and relevance for design today. Moreover, the reports and documents I have done with our students further our understanding of our legacy of historic and cultural landscapes. Recently, one of our projects was recognized with the top national award for documenting historic and cultural landscapes; this project beat out 45 other national academic or professional submissions. In sum, my scholarship, publications and work with students become platforms for understanding patterns of expression and meaning that serve us as designers as we look to create and initiate viable, sustaining design in the 21st century.

Joern W. Langhorst - Associate Professor

EDUCATION

| | | | |
|------------------------------|---------|---|------|
| Leibniz University, Hannover | current | Ph.D. candidate in Landscape Arch. ABD | |
| University of Hanover | 6 years | Diploma Landscape and Open Space Planning (MLA equivalent) | 1998 |
| University of Hanover | 4 years | Pre-Diploma Landscape and Open Space Planning (BLA/BSLA equivalent) | 1992 |
| University of Hanover | 4 years | Pre-Diploma Architecture (BArch equivalent) | 1992 |

Grants and Funding

- 2011 Faculty Development Grant, University of Colorado Denver. \$2,000.
"Representing Dynamic Landscape Systems."

Items in Review or Preparation

Book chapters in review:

Langhorst, Joern. "Contested Terrains and Discordant Frames: (Re-) Presenting the Changing City". In: Edward Clift; Annette Brauerhoch; Mirko Guaralda, eds. *Filming the City—urban documents, design practices & social criticism through the lens*. London: Intellect Books, anticipated publication date April 2016.

Articles in review:

Langhorst, Joern. "Between Ruin and Recovery – the Ethics and Aesthetics of Post-Industrial and Post-Disaster Landscapes." In review: *JOLA Journal of Landscape Architecture*, special issue "Ethics and Aesthetics", anticipated publication Spring 2016. This paper was invited by the special issue editors based on my presentation at the conference of the European Council of Landscape Architecture Schools (ECLAS), Sheffield, UK, September 2011. I was contacted by the journal and asked to expand this article for a future regular issue, as the reviewers and editors felt that the space limit for the special issue articles did not provide sufficient room to present my "timely, critical, and important perspective".

Langhorst, Joern. "Framing Landscape – Representing Time, Space and Place", in review: *Landscape Journal*, anticipated publication Fall 2015.

Langhorst, Joern. "Present Pasts: Contestation, Memory and Meaning in Public Urban Space". In review: *JoLa - Journal of Landscape Architecture* in Fall 2015. (alternate title: "Space and Place: On Notions of Meaning, Memory and Memorialization in the Landscape".

Book proposals in review:

Langhorst, Joern and Joni M. Palmer. *Landscape Theory: A Transdisciplinary Conversation*. London: Routledge. Anticipated publication date: Spring 2014, in review.

Articles in preparation:

Langhorst, Joern. "Framing Space and Time: Projections and Perceptions". To be submitted to *Aether*, special issue "Forgotten Frames", anticipated publication Spring 2013. The editors of *Aether* have agreed to dedicate a whole special issue to expanded versions of the papers presented, and a documentation and critique of the "Forgotten Frames" exhibition at the CELA conference, University of Illinois, April 2012.

Langhorst, Joern. "Between Utopia and Apocalypse: On the Afterlife of Manifestos" to be submitted for publication in the peer-reviewed *Landscape Journal*, anticipated submission Spring 2016.

Book chapters in preparation:

Langhorst, Joern. "Recovering Place, Empowering Community in post-Katrina New Orleans: On the Agency of Design-Build Projects in Post-Disaster Landscapes". I have been invited to submit a chapter on the design-build project in the Lower 9th Ward in New Orleans to a book on Design-Build programs and their agency. Book proposal by Daniel Winterbottom, University of Washington, (ed.) accepted by Routledge, anticipated publication date in Fall 2016 / Spring 2017.

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My research agenda is based in an understanding of landscape and place as a series of interrelated dynamic processes that are located within cultural, social, ecological, geophysical and economic systems. Landscape is operating as a result of cultural activity as well as an agent of cultural, social, economic and ecological change. I am interested in developing a critical understanding of the different factors and forces that influence the emergence of landscape and place as a basis for contemporary theory and practice of landscape architecture, spatial design and planning. Considering the intrinsic complexities and the discursive character design, inter-, cross- and transdisciplinary approaches and collaborations are critical to the success of the field and discipline.

Currently, I am focusing on the following topics and areas:

- landscape recovery, remediation and redesign: approaches to the design of brownfields, post-industrial, post-disaster, post-mining, ephemeral and transitory landscapes;

- landscape as contested terrain, investigating the cultural, social, ecological, economic production of landscape, place and space, emphasizing issues of social and environmental justice;
- urban design, with an emphasis on urban renewal and the “right to the city”;
- research and design methods and methodologies, investigating the relationship of creative/intuitive and scientific/rational approaches;
- traditional and emergent modes of visualization and representation and their role in the analysis, conception and design of landscape and place;
- land art and eco-revelatory design;
- environmental ethics and environmental aesthetics.

Jody Beck - Assistant Professor

Items in Review or Preparation

Landscape and Utopia, book proposal under review by Routledge
Landscape vs Capital, article in preparation

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

I am working on advancing knowledge within the profession of landscape architecture by continuing to explore the political implications of our work and means for addressing that responsibility. My work toward this end is part of my teaching, my research and my service. This topic is a central focus of the required course I have developed titled Site, Society and Environment. My current book proposal under review and article in preparation both focus on the philosophical foundation of our political capacity to impact the world around us. Architects, Designers and Planners or Social Responsibility regularly addresses issues that impact how we practice in the design professions.

In addition, I am working to expand the capability of the profession of landscape architecture through my research and my teaching in food system analysis and engagement. My food system studios and seminars have increasingly been focused on developing skills necessary to engage this realm of design work which is becoming steadily more obvious in its social relevance. The students who took LDAR 5502 last year produced work that supported Denver's Sustainable Food Policy Council and their recommendations to the Mayor regarding placing public land into agricultural production. This year's students will be working with the City of Lakewood to develop a food asset assessment and mapping the potential for urban food production in support of the city's 2015 Sustainability Plan. My funded research is also working toward the end of understanding the potential or growing food on urban landscapes – both the quantity of food and new typologies of public space related to this activity. I have had one proposal funded and will be using the results of that pilot study to apply for additional funding this year.

Grants and Funding

- 2011 Faculty Development Grant. \$2000.
"Uncovering Meaningful Curriculum Development in Landscape Architecture."
Funding to research and document other landscape architecture programs' approaches to integrating outcomes and assessment into curriculum.
- 2009 Elixr Project. \$1500.
The Elixr Project, an online teaching resource, was led by Dr. Kenneth Wolf, Dr. Ellen Stevens and Dr. Joni Dunlap and sponsored by the Center for Faculty Development and supported through the Fund for the Improvement of Postsecondary Education (FIPSE). As one of six faculty members participating in this project, I developed a narrative explaining my experience using rubrics as a form of assessment. I was videotaped while teaching and then interviewed about my teaching and assessment practices. This digital case story has been added to those generated for the larger national project and is available online to others as examples of effective strategies for teaching and learning.
<http://elixr.merlot.org/assessment-evaluation/assessment-rubrics?noCache=913:1267989178>

Civic Engagement Projects

- 2014 Upper 5th Avenue Planting Redesign – Lyons, Colorado.
Students in the Plants in Design class worked with the Lyons Ecology Board, as a part of Resilient Colorado, to develop several planting design concepts for the upper section of 5th Avenue. In addition students developed a weed management field guide for the Town of Lyons, Colorado. Their work is being documented in a booklet form, which will be delivered to the Ecology Board in fall 2015.
- 2013 Auraria Library Studio – Denver, Colorado.
Students developed concepts that addressed questions such as, "What is the role of the Auraria Library on this campus?" and "How should campus design respond to changing realities?"
The ideas and concepts discussed with the library faculty and staff resulted in hiring a local landscape architecture firm to further explore the spatial relationships between the library entrances and campus.
- 2012 Auraria Library Courtyard Planting – Denver, Colorado.
During the summer of 2012 students designed and installed a small-scale landscape in the Auraria Library South Courtyard. The students worked with Auraria Library faculty and staff, the Auraria Higher Education Center (AHEC) facilities management to envision the role of the courtyard in the context of the library. Based on those conversations, students developed a detailed planting design, using perennials, which addressed the design principles generated as well as maintenance concerns. With the assistance of co-instructor Fred Wheeler, a local landscape contractor, the students installed plantings in the south courtyard.
- 2011 Riverbend Park Master Plan - Palisade, Colorado.
The master plan is comprised of assembled work completed as culmination of a graduate level studio: a master plan document for Palisade's Parks and Recreation Advisory Committee. Upon completion the Town of Palisade Trustees and staff adopted it as the official park master plan. Funding was provided by the Colorado Center for Community Development.

Design Projects

Cherry Hills Modern Estate, Cherry Hills Village, Colorado
Mariposa Phase VI for the Denver Housing Authority, Denver, Colorado
Adams County Memorial Stadium Master Plan, Westminster, Colorado
South Lowell for the Denver Housing Authority, Denver, Colorado
Shield House, Denver, Colorado
Castle Pines Residence, Castle Pines, Colorado
RTD Wadsworth Park-n-Ride, Lakewood, Colorado
Larimer Street Redesign, Lakewood, Colorado

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My background in professional practice and my teaching experience are closely linked. I am a licensed and practicing landscape architect, serving as Associate Chair and Senior Instructor in the Department of Landscape Architecture, positions jointly held for the past ten years. As a teacher, I am committed to integrating relevant experiences from practice with well-executed pedagogical approaches. As an administrator for the department, I have come to better understand the operations of the department, college and university and how I might contribute.

I have been extensively involved in curricular development within the department. I spearheaded the early development of the department's student learning outcomes and continue to actively participate in program decision-making and planning. My efforts in establishing learning outcomes and assessing student performance have placed our department in the top tier of the University's compliance with this pressing need for documenting and understanding teaching and learning.

My research is closely related to and integrated with my teaching. To date my primary research agenda has focused on design pedagogy, learning outcomes and assessment -- shifting design education from the paradigm of "teaching" to that of "learning." I have participated in several projects that exemplify the development of my expertise in these areas.

I played a central role in the development of an undergraduate architecture program for young women attending Dar Al-Hekma College in Saudi Arabia. I developed the program-level student learning outcomes, helped refine the sequence of courses, reviewed and coordinated outcomes within and across syllabi, and mapped outcomes for the program in its entirety to ensure desired requirements were included.

I was one of six faculty members invited to participate in the Elixir Project led by Dr. Kenneth Wolf, Dr. Ellen Stevens and Dr. Joni Dunlap. For this project I developed a narrative explaining my experience with rubrics as a form of assessment and described the challenges of developing quality rubrics. As a part of the project, I was videotaped while teaching and interviewed about my teaching and assessment practices. The video became a digital case study and was added to a larger national project.

In 2011, I was awarded a Faculty Development Grant titled "Uncovering Meaningful Curriculum Development in Landscape Architecture." For this project I researched and documented, with a research assistant, other landscape architecture programs' approaches to integrating outcomes and assessment into the curriculum.

Through my research activities to date I have developed expertise in areas specifically related to design education. This research is important because it significantly impacts students' learning. Yet it is more about processes within higher education and has less direct impact on the greater community. Therefore, I am in the process of expanding my research to include two areas related to water issues -- a new planting aesthetic for the arid West and the responsible use of water. In 2011, I co-presented a paper with Paul Lander, a regional water expert, at the WaterSmart Innovations Conference in Las Vegas, Nevada. The presentation, "Valuing Water and Landscape in the Urban West," proposed a new way of budgeting water across an entire development site to address the changing nature of water availability in the west. These topics are directly related to the department's vision and relevant to challenges our community is facing.

Tony Mazzeo - Senior Instructor

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My teaching and research method has been shaped by 30 years of experience in the practice of landscape architecture. Knowing that the proposition of intervening in the processes of landscape can be so much richer and rewarding, I encourage students to consider new approaches to conventional practice as well as new territories to affect by engaging the realities of the contemporary landscape project. This polemic is achieved through critical consideration of the inherited tools and methods of current practice and the development of feasible alternatives.

My research interests focus on:

Practice: creating relevant learning experiences grounded in both the theory and practice of landscape architecture specifically related to the construing and constructing of more sustainable human environments.

Studio: developing a critical understanding of the relationship between representation and the production of landscape. Given the complexities of the contemporary built environment design ideas are always linked to appropriate imaging and visualizing techniques, both in theory and practice.

Leila Tolderlund - Instructor

The Parkway Center/Union Park, Las Vegas, Nevada

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My current research and teaching is shaped by my years of experience within the practice of landscape architecture and urban design, and within the field of urban eco-surfaces and green infrastructure. I believe that testing ideas in the field with students strengthen academia and create unique hands-on learning opportunities. My primary focus is both academia and practice is promoting a holistic approach to sustainable design strategies using green infrastructure and living systems in dense urban settings. My research, teaching and practice has been largely focused on addressing trans-disciplinary, informed, and resilient design using Participatory Action Research (PAR) strategies to help mitigate global social, environmental and economic challenges. I have found that PAR projects that are collaborative and 'hands-on' generate student participation, set the stage for holistic design thinking and are engaging to all.

Over the past five years I have developed combined research and teaching agendas exploring eco-surfaces, i.e. vertical and horizontal landscapes above (and within) structure.

These include the following:

- IRIS (Infrastructure and Research of Integrated Systems) cross-college (UCD) initiative - exploring symbiotic relationships of green roofs and solar PV production, reduction of urban heat island effect and stormwater quality and quantity management.
- Cross-disciplinary International Studies (Urban Design Living System Studios + Cross-disciplinary 'Scandinavian Sustainability Unlocked' study abroad).
- Cross-Disciplinary/Trans-disciplinary Participatory Action Research (PAR) projects.
- Living Systems Advanced Vertical Studios (combined 2nd and 3rd year MLA Capstone Studios) exploring ecological form and performance associated with urban materials.

Some of my most recent professional and creative eco-surface (and PAR) projects include:

- Writing design guidelines for eco-surfaces (green roofs and green walls) for the City of Frederiksberg, Copenhagen, Denmark
- Teaching and facilitating a cross-disciplinary international workshop/studio creating conceptual design for a vertical eco-responsive 'sponge'/art wall at Carlsberg Byen's train station, Copenhagen, Denmark
- Designing eco-revelatory and responsive prairie dry-land ecosystems for the Music and Arts building roofs at Colorado State University, Pueblo, Colorado
- Designing, installing and overseeing maintenance of a 6-month educational dye-garden installation at the Denver Art Museum, Denver, Colorado
- Designing and installing a green urban farming and art wall at Root Down DIA restaurant at Denver's International Airport, Jeppesen Terminal, Concourse C, Colorado

Increasing the resilience of our future cities relies on strategies for mitigation of climate change, better management of resources, and plans and policies to support and increase public health. That requires research of self-sustained integrated systems and holistic design thinking. I have been an advocate for urban green infrastructure over the past ten years. I believe evidence based research is imperative. It is more than often the number one thing that motivates, encourages and enables private business owners, educational institutions and municipalities to implement urban living systems and eco-surfaces in cities across the world.

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My contributions are focused in five areas:

PLACE + MAKING

Practicing landscape architecture as a creative and generative process that enriches communities and enhances [reveals] the sets of relationships between land, ecological systems and cultural patterns of a given site within its larger context.

PLANNING HEALTH

Promoting landscapes as resilient environments that foster health, well-being, and ecological diversity.

SHARING TERRITORIES

When engaging with a site, we recognize the degrees of transformations and operations applied to such site: re-establishing negotiations between human settlements and natural communities as sets of shared territories.

SCULPTING TOPOGRAPHY

Ground is the [landscape architecture] medium on which we operate to create dynamic environments – 3Dimensional fields that are transformative and engaging.

CULTIVATING STORIES

Creating threads across the landscape; to design is to celebrate social and cultural 'memories' of the site; weaving communities and spaces to unique histories.

Environments of focus include urban public realm, public gardens, housing projects, health facilities, and historically modified urban waterways and drainages.

Scott Carman - Lecturer, Visiting Instructor (*academic year 2014-15*)

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

My record of contributions to the profession of landscape architecture over the past 5 years spans my dual roles as a practitioner and as an educator, having spent significant time in both professional practice and academia throughout my career. In my design practice, I have striven to push the boundaries of public space and the built environment, collaborating with multidisciplinary teams on forward-thinking proposals for competitions such as Denver's Reimagine Play and Boston's Living with Water. In each case, our proposals for innovative ways of thinking about the complex interrelationships between people, natural systems and the built environment gained wide exposure with the public and other professionals by virtue of being selected as finalists from a large number of entries. These designs were both featured in numerous exhibitions and public presentations, receiving acclaim for their thoughtful and original ideas.

In my academic work, I have focused on the use of geospatial technology and its application to site- and urban-scale issues. At Colorado State University (CSU), I created a graduate studio course in partnership with city staff to help reach the city's goal of ensuring that all residents are within a ten minute walk of a natural area. Geographic Information System (GIS) technology was employed throughout this process and used by students to create a novel metric for measuring the natural and social qualities of various spaces throughout Fort Collins. This information was then compiled and used to create guidelines for introducing additional amenities with both environmental and social value. At the University of Colorado Denver, the theme of this work was continued in a studio that focused on the distribution of urban agriculture throughout Denver. Working in partnership with city agencies and local non-profit organizations, students used GIS to analyze existing conditions and identify appropriate sites for various types of food production.

I have also co-authored two academic papers on issues affecting the urban built environment. The first, entitled "Temporal Agents and the Power of Play in the Built Environment," explored the phenomenon of limited-duration spaces and events in various cities, particularly those aimed at inciting people of all ages to play as a form of social engagement as well as physical activity. The second paper, entitled "The LENSES Framework: A Pedagogy for Regenerative Urban Design," reported on the results of a graduate studio at CSU that employed a new, holistic urban design methodology pioneered by the Institute for the Built Environment called Living Environments in Natural, Economic and Social Systems (LENSES). Both papers were shared with local audiences as well as nationally through presentations at the Council of Educators in Landscape Architecture (CELA) annual conferences in 2013 and 2015.

Austin Allen – Associate Professor (2004 – 2010)

Research Projects

Media Arts Production

Producer/Director/Writer/Editor, *In the Site of the Unseen*, 2011

A documentary on Frederick Law Olmsted

Other Research

The Regeneration of New Orleans through Courses and a Research Context: A five-year commitment, started in September 2005, of research and practice towards the rebuilding of the New Orleans region, and more specifically the Lower Ninth Ward of the City of New Orleans. The Departmental and individual commitment centers on the use of graduate design studios and my individual research, planning and design strategies towards the recovery of community and the regeneration of place. This will generate papers, book chapters, a book and a documentary.

Design Projects

African American Cultural Garden, Cleveland, Ohio

Rockefeller Park Strategic Plan, Cleveland, Ohio

CONTRIBUTIONS

Description of your role in advancing the knowledge or capability of the profession of landscape architecture in the last five years.

I am engaged in a major research and practice effort in the City of New Orleans working towards the regeneration of the devastated city. The efforts of this project are at the center of many successes at building the most sustainable, green communities in North America. The following reflects the first four of a five-year commitment to research and practice towards the rebuilding of the New Orleans region, specifically the Lower Ninth Ward of the City of New Orleans. Departmental and individual commitment centers on the use of graduate design studios, as well as my individual research, utilizing planning and design strategies towards the recovery of community and the regeneration of place.

Fall 2008

I served as the inaugural Bickham Chair of the Robert Reich School of Landscape Architecture at Louisiana State University for the 2008/2009 academic year, participating in a graduate studio emphasizing the Lower Ninth Ward.

I secured funding for, and the inclusion of, landscape architecture in the Make It Right Foundation Project as the main writer for a grant to the Lower Ninth Ward Center for Sustainable Engagement. I also secured funding to link the Dr. Martin Luther King Jr. Charter to a coastal and wetlands restoration education strategy through the Bayou Bienvenue Wetlands. Additionally, this grant linked the school to a \$10 million fresh water diversion project of the New Orleans Sewerage and Water Board in the Bayou Bienvenue Wetlands.

Spring 2009

I continued to serve as the inaugural Bickham Chair of the Robert Reich School of Landscape Architecture Louisiana State University, participating in another graduate studio, once again emphasizing the Lower Ninth Ward. This studio was tied together with ASLA, Walter Hood, Jane Wolf, Elizabeth Mossop and a studio taught by Joern Langhorst at UCD into a combined effort to thoroughly integrate landscape architecture into the Make It Right Foundation Project in the Lower Ninth Ward. This made it possible for the Make It Right Foundation Project to collaborate with the City of New Orleans on a \$4 million dollar complete streets project in the Lower Ninth Ward.

Additionally, I worked closely with graduate students at the Water Resource Management Department at the University of Wisconsin, Madison. This team continues to play a major role in researching water salinity and the possibility of reforesting the Bayou Bienvenue Wetlands.

I also continued to work closely, and maintain strong relationships with, multiple organizations in the Lower Ninth Ward.

Charles Chase - Senior Instructor (2006 – 2013)

CONTRIBUTIONS

Description of your role in advancing the knowledge or capability of the profession of landscape architecture in the last five years.

I work to bring design support to youth and adult communities, and agencies without adequate support and budget, for environmental and ecological designs. I bring an assortment of public agencies with design needs to CU Denver, and via the Advanced Ecology course, students create designs to fulfill the needs of the agencies. The agencies then commit to building those projects during the following summer with the support of the volunteer and community groups in their area. I facilitate the processes to manage this dynamic procedure, as well as the scientific view to assure the designs and implementation are sustainable and successful.

CONTRIBUTIONS

(Briefly describe your involvement in advancing the knowledge or capability of the profession of landscape architecture in the last five years.)

Dr. Palmer's teaching and research interests focus on three areas: reading and writing landscapes; arts, culture and sustainable cities; and the relationship between academia and practice. Her current book project (with Martin Zebracki, University of Leeds), *Public Art Encounters: Art, Space and Identity* (Ashgate), will be published in late spring 2016. Palmer's professional practice includes working for firms in Boston, Seattle and San Francisco; her practice ranges from urban park design and campus planning to arts and cultural planning. Dr. Palmer teaches design and planning studios, site planning, site engineering, landscape theory, research methods, visual representation(s), as well as urban and cultural geography.
