

Take your urban planning career to the next level...

MURP + MUD DUAL DEGREE

MASTER OF URBAN DESIGN DUAL DEGREE OPTION FOR MURP STUDENTS

The Master of Urban Design (MUD) is a graduate degree program for individuals with an educational/professional foundation in architecture, urban planning, or landscape architecture who seek interdisciplinary professional training in urban design.

The **MURP + MUD DUAL DEGREE** option allows you to earn the MUD degree along with your MURP following a “two-degrees, one-curriculum” arrangement that meets the requirements for both degrees while double-counting course credits toward both degrees, saving you time and money. Here’s how it works:

- Apply to the MURP and MUD programs at the same time, or apply to MUD after you have already started in the MURP program as long as you have a minimum 3.00 GPA in your MURP studies.
- As you progress through the MURP program, take up to four MUD lecture courses that double-count as MURP electives.
- After completing the MURP requirements, take the three MUD studios and remaining MUD lecture courses to conclude the MUD program.
- Graduate and receive both your MURP and MUD degrees. If the MURP is serving as your qualifying professional degree in a planning/design field for joining the MUD program, you must complete the MURP degree in order to earn the MUD degree.

URBAN DESIGNERS CREATE GREAT PLACES THROUGH THE HOLISTIC INTEGRATION OF ARCHITECTURE, URBAN PLANNING, AND LANDSCAPE ARCHITECTURE

WHY GET AN URBAN DESIGN DEGREE?

Earning your MUD degree expands your perspectives and your career prospects! Grow as an interdisciplinary thinker, practitioner, and leader through urban design:

- Pursue a career in urban design practice where your primary work focuses on producing urban designs that holistically integrate buildings, parks and public spaces, streets and mobility infrastructure, and diverse uses into thriving and sustainable places.
- Incorporate urban design knowledge, perspectives, and skills into your urban planning practice, making you a **BETTER** urban planner as a result and giving you a competitive advantage over your peers.

MASTER OF URBAN DESIGN – PROGRAM CURRICULUM

FALL SEMESTER COURSES

URBN 6500: URBAN DESIGN STUDIO I

Introduces urban design at a citywide scale through the evaluation of urban structures, systems, networks, and spatial forms that create the complex organism known as the city. Students explore urban design concepts as physical solutions to contemporary issues by completing a substantial urban design project for a real-world client. **6 CREDITS**

URBN 6525: CITY DESIGN FUNDAMENTALS

Investigates the historical roots, spatial attributes, and physical forms of cities and their evolution over time; environmental, social, and economic forces influencing city design; and urban design as the holistic integration of architecture, urban planning, and landscape architecture. **3 CREDITS**

URBN 6550: DESIGN POLICY, PROCESS, AND REGULATION

Explores the design policies and regulations that shape the urban form of cities, how they are created and evolve over time, and how policies and regulations impact design ideation, analysis, and communication using real-world scenarios to experiment with and test iterative design processes and techniques. **3 CREDITS**

URBN 6575: URBAN DESIGN COMMUNICATION AND GRAPHICS

Emphasizes knowledge and skills development in visual communication and graphic design principles, components, and techniques within an urban design context, supported by self-directed instruction in digital visualization tools, to ensure students are expert communicators using visual media. **3 CREDITS**

SPRING SEMESTER COURSES

URBN 6600: URBAN DESIGN STUDIO II

Advances the understanding and application of urban design tools, methods, and practices and engages students in a real-world project with a community partner. Students integrate real estate development, economics, environmental and social equity, aesthetic criteria, historic preservation, and community engagement. **6 CREDITS**

URBN 6625: URBAN DESIGN ECONOMICS AND EQUITY

Explores the economics of urban design through its relationship with private-sector real estate development, public-sector infrastructure, and budgetary constraints on design implementation while emphasizing the critical role of urban design in advocating for social equity and justice, affordable housing, and related issues. **3 CREDITS**

URBN 6650: URBAN DESIGN AND THE ENVIRONMENT

Provides an understanding of the inextricable relationship between urban design and the natural environment. Students learn how to design sustainable public spaces, promote environmental resilience, combat climate change, and foster environmental justice and healthy communities through urban design. **3 CREDITS**

URBN 6675: DESIGN PRACTICE AND LEADERSHIP

Provides students with a comprehensive understanding of urban design as a professional practice; how urban design functions within a collaborative and interdisciplinary environment; and the interpersonal skills needed to successfully work as part of, and be a leader in, a complex and dynamic design team. **3 CREDITS**

SUMMER SEMESTER COURSES

URBN 6700: URBAN DESIGN GLOBAL STUDIO

Travels to international locations to engage in public space site assessments and undertake urban design concept planning, analysis, and production on a real-world project involving multiple environmental, cultural, and socioeconomic factors, diverse urban contexts, and various design scales and dimensions. URBN 6700 is the default summer course. **6 CREDITS**

URBN 6725: URBAN DESIGN CAPSTONE

Requires students to work individually, paired with an urban design practitioner mentor, on a complete design solution for a real-world client that incorporates the full spectrum of urban design knowledge, methods, and skills to produce professional-grade urban design plan deliverables. URBN 6725 is a substitute for URBN 6700 for students not able to travel internationally. **6 CREDITS**

MASTER OF URBAN DESIGN – PROGRAM HALLMARKS

PROFESSIONAL ENGAGEMENT

Learning by engaging with accomplished urban design practitioners

COMMUNITY ENGAGEMENT

Learning by engaging with community members and local organizations

ENVIRONMENT AND EQUITY

Learning how to fight climate change and social inequities through urban design

INTERDISCIPLINARY LEADERSHIP

Learning how to lead the city-building process through urban design

Please contact MUD Program Director Ken Schroepfel (ken.schroepfel@ucdenver.edu), CAP Academic Advisor Roxy New (roxy.new@ucdenver.edu), or CAP Admissions Manager Jodi Stock (jodi.stock@ucdenver.edu) for assistance.
