1) Students must maintain program cumulative grade point average of 3.0 or higher to remain in good standing. If the program GPA falls below 3.0, the college shall notify the student; the student's academic standing will remain that of *probation* until the GPA reaches 3.0 or higher.

2) A grade of C+ or lower in a lecture course cannot be applied to the completion of the M.Arch program.

3) Students receiving a C+ in a studio will be allowed to register for the subsequent studio level and must earn a minimum grade of B in the subsequent studio to avoid having to repeat the studio in which the C+ was received. A student receiving a grade of B- or lower in that subsequent studio will be place on academic probation and will be required to retake the studio.

4) All required courses listed in the Course Sequence prior to each studio will be a prerequisite for that studio

5) The M.Arch requires 21 total credits of elective coursework; 15 credits must be fulfilled with courses taken in the Architecture Department (ARCH), and the Open Electives may be completed with any graduate level coursework.

6) Course availability is noted with superscript: Fa = Fall, Sp = Spring, Su = Summer.

Total Credits required for M.Arch: _____ 105 _____

Credits waived for Advanced Standing: _____
