### Modality Definitions Key

<b>Remote</b>	Course takes place using Zoom in a pre-scheduled, virtual, synchronous learning environment. There is no on-campus component. Students are expected to participate in all scheduled Zoom meeting times per week, unless otherwise instructed by the faculty member.
<b>Online</b>	Course takes place in an asynchronous, flexible-schedule, online setting. There is no on-campus component and no pre-scheduled meeting pattern.
<b>In Person</b>	Course is taught primarily on campus in pre-scheduled meeting patterns, even if there are other online/digital components.
<b>Hybrid</b>	Course is designed with a mixture of pre-scheduled, live meeting patterns on campus and flexible-schedule learning in an online setting. Online setting can be either synchronous or asynchronous and will be indicated on the course schedule.
<b>Remote/Online</b>	Course is designed similarly to the Hybrid modality; however, there is no on campus instruction, and is, instead, a mixed modality of synchronous remote and asynchronous online instruction.
